

The Blessing Choice Psychology Model

Blessing Choice Psychology Model Synopsis

We get stuck when we become convinced in a belief that is not in alignment with truth. Truth is independent of us and not subject to our thoughts or feelings. My life coaching focuses on forming beliefs that are in alignment with truth to initiate different behaviors that will lead you to the results you want in your life. Set up a free personalized coaching session with me to discuss reaching your goals on my website at grahamhoneycutt.com/get-started.
